Moritz Design Process & Finished Examples

Enclosed is a gallery detailing the organic process of creating these soundhole designs.

Customer asked for a specific waterfall and wildflowers including Rose of Sharon, Trillium, and Viola.

Jess Dickinson sent a jerusalem cross and asked for a detailed crown of thorns behind it.

LOGO REDESIGN & ADAPT FOR SOUNDHOLE

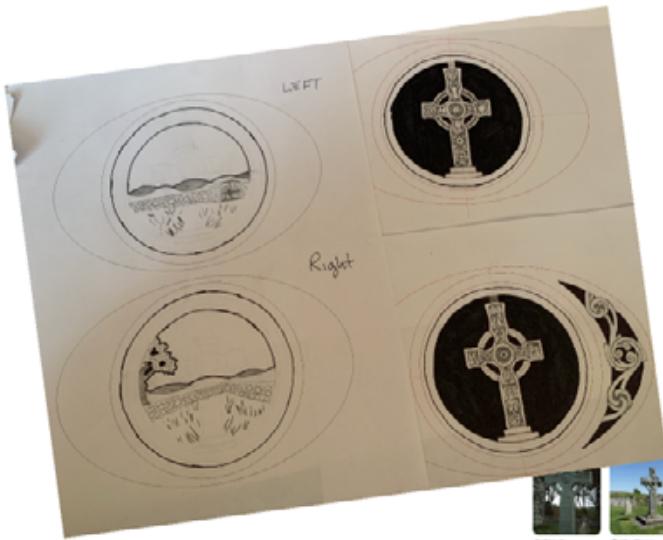

ORIGINAL LOGO

Courtney DULCIMER SHOP

NEW LOGO

Kildalton Cross

Needed views of both sides showing background. Study elements of the cross because the designs in photos are obscured by weathering over time. Elliptical piece inspired by design elements of the Kildalton Cross.

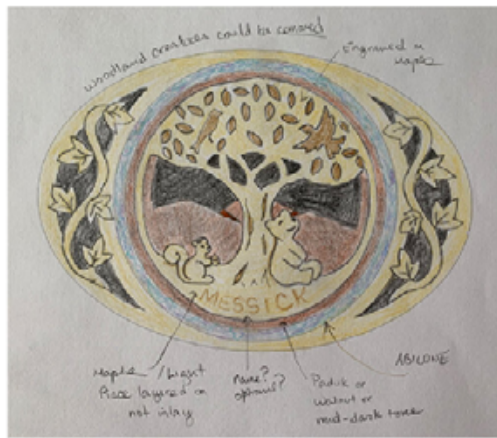

Customer sent inspiration photos of doors around the world and melting candles.

Customer sent photos of his sheepdogs. Requested design include Mt. Fuji, Bonsai and Japanese Cherry blossoms

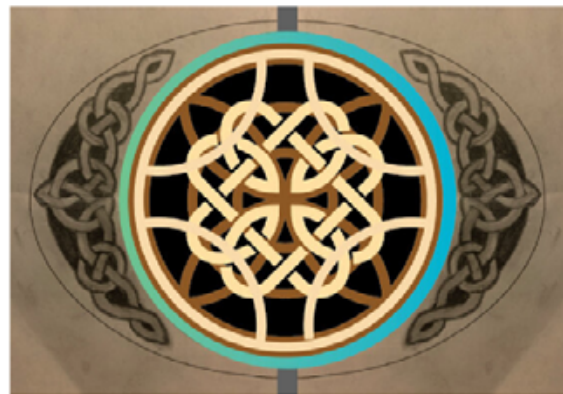

Joshua requested a tree,
Blue Ridge mountainscape,
and playful woodland creatures.
A version of this design also exists
without the woodland animals.

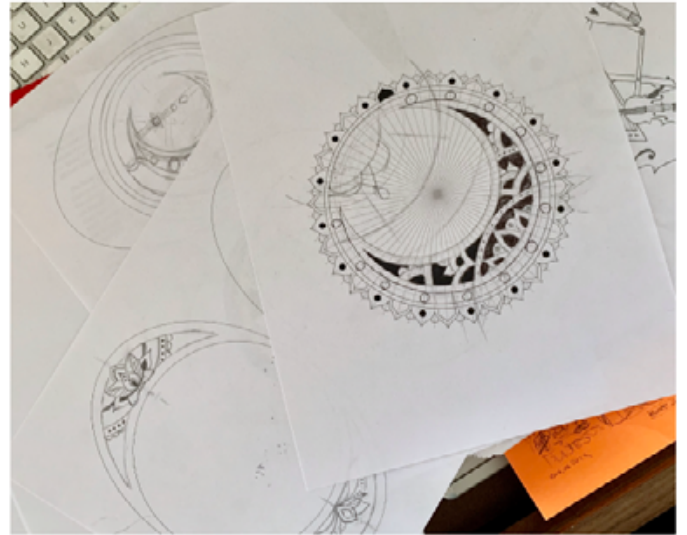

Mark requested the incorporation of
a shamrock celtic knot which
has elements that resemble his
initials (MW)

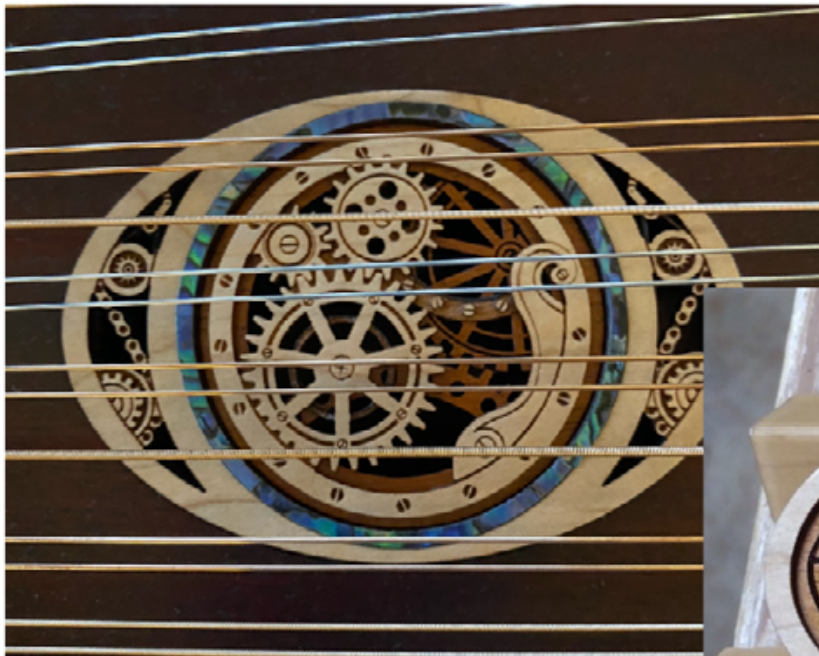

the design was layered to create
depth and custom knotwork was
created for the elliptical piece.

Moritz Instruments: A combination of mandala, renaissance celestial and nautical compass rose, this is a lacey, dimensional set of designs that can be mixed and matched.

Customer requested a combination the Sacred Heart, Immaculate Heart, Miraculous Medal, and other symbolic catholic imagery.

Left: Customer requested a "Steam Punk" design. I layered gears, chains, and nuts/bolts. I added a curved bracket/plate element to the design to give it a more "musical" feel.

Right: Customer requested the initial "J" be stylized to resemble a Treble Clef
